Re: DE-FOA-0003612 The Genesis Mission

Dear Dr. Chris Brown:

If your application entitled, "Provenance-Aware Agentic Knowledge Graphs for Scientific Discovery" is selected for funding under the DE-FOA-0003612 The Genesis Mission: Transforming Science and Energy with AI, it is my intent to collaborate in this research by joining the project advisory board— participating in regular meetings with the research team to discuss updates, offer constructive feedback on ongoing efforts, and ensure that project progress aligns with both the research objectives and the broader mission of the DOE.

Thank you for the opportunity to participate.

Sincerely

Dr. Reed Milewicz, PhD
